

Interview Skills & CV Workshop

Delegate Comments

Challenge

Our client, a top pharmaceutical company, wanted to identify a way of supporting Junior Doctors and preparing them for that all important Consultant role. They wanted to be able to develop a sound working relationship with this key group of customers, whilst also supporting the SpRs unmet training needs.

Solution

Inspire Change developed a two day course titled 'Moving Up' which consists of a series of lectures and workshops. One of the most important workshops concentrated on Interview Skills and writing the correct CV. The workshop was inspirational and explored what an interview panel expect from a CV, what questions are asked at interview and why and what to do before the interview. We also explored the correct way to 'present' at an interview as well as giving each delegate the opportunity to undergo a mock interview with a team of panellists.

Results

At the Moving Up course we invited delegates to complete a feedback form which was analysed by a third party. Looking at the complete programme, delegates were asked 'How would you rate this programme in terms of your future career?' 100% said excellent with 92% saying it fulfilled their expectations. The Interview Skills & CV Workshop results showed that 70% found it excellent, 30% good and nobody found it average or poor.

Here are some of the comments from delegates who have attended this workshop:

"Extremely useful exercise"

"Very useful. Not intimidating"

"A very different approach"

"Thought provoking. Great practical session"

"A must in today's environment"

"The best course you could get"
